## Chrome Leather Bellow

### Suitability

Chrome leather bellows for covering open rotary stroke bearings.

- Prevents dirt particles penetrating open rotary stroke bearings.
- No impairment of the smooth running of the rotary stroke bearing.
- Customized to the installation conditions.

### Features

- The relationship between the inside diameter  $d_i$  and the outside diameter  $d_a$  has been selected to give the bellows good stability.
- Optimum contraction ratio ( $l/l_e$ ).
- Unlike rubber or plastic bellows, leather bellows do not impair the smooth running of the rotary stroke bearing.
- The natural material is resistant to most environmental influences. (Caution should be exercised when using certain coolants!)
