Chrome Leather Bellow

Suitability

Chrome leather bellows for covering open rotary stroke bearings.

- Prevents dirt particles penetrating open rotary stroke bearings.
- No impairment of the smooth running of the rotary stroke bearing.
- Customized to the installation conditions.

Features

- The relationship between the inside diameter d_i and the outside diameter d_a has been selected to give the bellows good stability.
- Optimum contraction ratio (l/l_e).
- Unlike rubber or plastic bellows, leather bellows do not impair the smooth running of the rotary stroke bearing.
- The natural material is resistant to most environmental influences. (Caution should be exercised when using certain coolants!)

品目番号

技術データ

Fastening method	axial and radial clamping
Formula for bellows infeed length	$l_e = l \cdot q$ q = factor for contracted length l_e

寸法

Shaft diameter (d_w)	63 mm
Outer diameter (d_a)	110
Inner diameter (d_i)	80
Extraction length, max.	1500
Factor for infeed length (q)	0.2
Sleeve length (b)	10
