# Brass Ball Cage N511

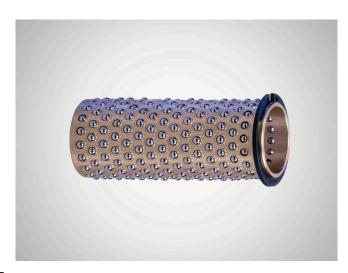

#### Suitability

Brass ball cage with steel balls and circlip for path limitation.

- Provides an optimum combination of smooth running and long service life
- High loading capacity due to large number of balls.
- Particularly suitable for linear movements in tools and machines which require high precision.
- Reliable ball cage path limitation using circlip.

- The ball chambers are mechanically caulked so that the balls remain captive but still move easily.
- Large number of balls ensures high loading capacity.
- Brass offers high mechanical stability, optimum sliding properties, and high resistance to abrasion and heat.
- See catalog page 37-41 for instructions on installation and servicing.

品目番号 5001145

## 技術データ

| material                     | Brass                |
|------------------------------|----------------------|
| material number              | 2.0402 (CuZn40Pb2)   |
| ball material                | roller bearing steel |
| number of balls              | 198                  |
| C - Load rating (radial)     | 2360                 |
| max. torque                  | 18.66                |
| ball arrangement             | arranged in rows     |
| constant working temperature | 150                  |

## 寸法

| shaft diameter (dw)               | 25  |
|-----------------------------------|-----|
| Inner diameter of guide bush (d1) | 31  |
| Length of ball cage (I2)          | 52  |
| distance circlip (f)              | 2.8 |
| distance 1. ball (I4)             | 4.1 |
| ball diameter (k)                 | 3   |
